ELECTRONIC BALANCING DAMPER

Features and Benefits:

- No field power required!
- Best for applications where balancing dampers are located in finished ceilings or difficult to reach places
- Freely run wire in any direction, unlike cable dampers
- Comes in round (6” to 18”) and rectangular (8×8” to 36×36”)
- Handheld controller equipped with 9 volt power supply via RJ-11 cable
- Up to 9 dampers can function in daisy chain fashion
- Accessories available, including ports and wall plates
