EASY BYPASS DAMPER

IT DOES NOT GET ANY EASIER THAN THIS!

EZ-BD is a constant pressure regulating bypass damper used in forced air zoning systems to relieve excess static pressure.

Features and Benefits:

- Extremely easy to install and set
- No external regulator or weighted arm
- Can be installed vertically or horizontally
- Gasketed blade
- Available in 6", 8", 10", 12" and 14"
- Cost-effective
- Made in USA

This bypass has been factory set at 0.4" W.C. and should not need to be adjusted for most residential applications.
